ABSTRACT

This bibliography presents a compilation of Agriculture and Agronomy doctoral research for the years 1973-1976. Each of the 3,386 doctoral dissertations cited herein has been accepted by accredited degree-granting universities in North America and published by University Microfilms International (UMI). Dissertations are arranged alphabetically in author sequence under each subject heading, from Agriculture, General to Zoology. Each entry includes a full title, degree earned, degree-granting institution, date of degree, number of dissertation pages, reference to the 600-word abstract location in Dissertation Abstracts International by volume, issue, and page number, and an order number for acquiring a full text reproduction of the dissertation. Complete full text copy ordering information follows. A listing of Masters theses, also available from UMI, follows the dissertation section. These theses are arranged under 23 subject headings comprising Earth Sciences, Biological Sciences, and Allied Subjects. Each title is abstracted in Masters Abstracts and available as full text reproductions from UMI. Subject catalogs such as this one are compiled and released periodically for scholars and librarians as basic research tools and ordering guides. (Author/MA)

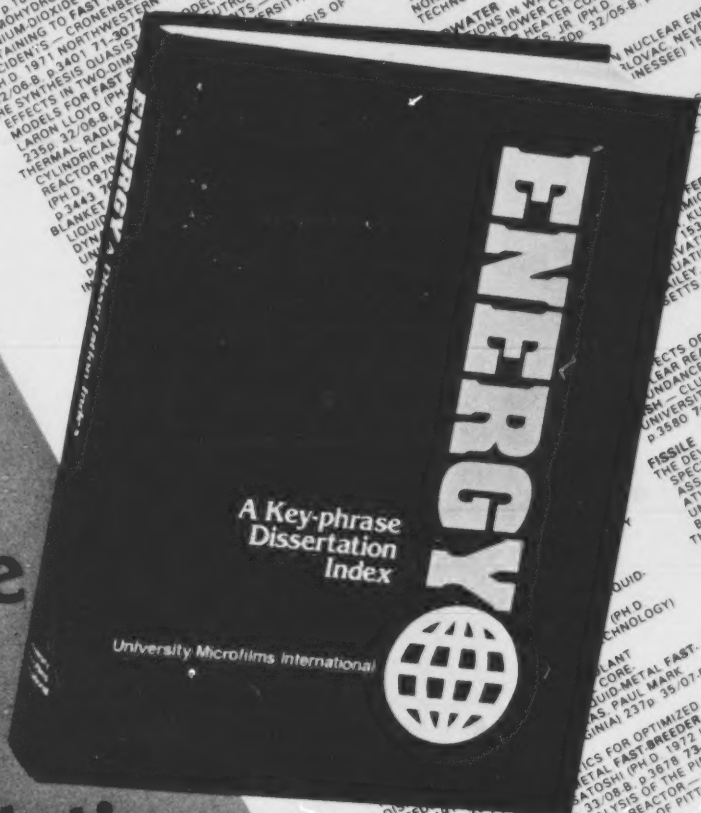
The only comprehensive reference to energy-related doctoral dissertations



If you work in energy-related industry or research; if you study or set energy policy; if you teach, manage or plan the use of energy resources; or if you're a librarian who receives inquiries about energy information... you won't want to be without this all-new reference book. University Microfilms International searched its extensive data base of over a half-million dissertation citations to compile this comprehensive index—the only one of its kind. The more than 5,000 citations selected for inclusion are arranged using a key-phrase system. This system lets the researcher turn immediately to closely-defined units of information. Each entry in the index also identifies the location of an abstract and provides ordering information for full text copies of each dissertation; most may be ordered directly from University Microfilms.

Price is $66.00 per copy (includes shipping and handling).
(Price outside U.S. is $75.00 plus shipping and handling.)

Introduction

Agriculture and Agronomy have received significant attention as topics for doctoral research. This bibliography presents a compilation of this research for the years 1973-1976. Each of the 3,386 doctoral dissertations cited herein has been accepted by accredited degree-granting universities in North America and published by University Microfilms International.

Dissertations are arranged alphabetically in author sequence under each subject heading (from Agriculture, General to Zoology). Each entry includes a full title, degree earned, degree-granting institution, date of degree, number of dissertation pages, reference to the 600-word abstract location in *Dissertation Abstracts International* by volume, issue and page number, and an order number for acquiring a full text reproduction of the dissertation. Complete full text copy ordering information follows.

A listing of Masters theses—also available from UMI—follows the dissertation section. These theses are arrayed under 23 subject headings comprising Earth Sciences, Biological Sciences, and Allied Subjects. Each title is abstracted in *Masters Abstracts* and available as full text reproductions from UMI.

Subject catalogues such as *Agriculture and Agronomy* are compiled and released periodically by University Microfilms International drawing from the Comprehensive Dissertation Database of over 500,000 titles. These catalogues are produced for scholars and librarians as basic research tools and ordering guides.

Ordering Information

Effective October 1, 1975

When ordering dissertation or masters thesis copies supply the order number (including all letters and numbers, e.g., BGD75-0102), author's last name, complete dissertation or thesis title, format and type of binding wanted, billing name and address (on institutional orders only), and shipping name and address. Individuals *must* send a check or money order with their order. Institutions will be billed when their order is shipped; they should use their standard purchase order form, being sure to include the purchase order number and tax exemption number if applicable.

PAPER COPIES

Paper copies of dissertations and masters theses available from University Microfilms International are reproduced xerographically at about 2/3 the original size. They will be perfect-bound and covered in paper. Clothbound copies are available at an additional charge (see Prices below), with author and title stamped in gold on the spine. Unless you specify "cloth binding" (and on prepaid orders include the additional cost) on your order, you will be shipped the standard paper cover.

Pages are printed in numerical sequence by xerography; but, since printing is on one side of a continuous web, the finished copy has printing on the right-hand pages only. Charts, graphs, line drawings, and similar illustrations reproduce quite well. For pages where half-tones and continuous tone enlargements of higher quality are required, photographic prints can be made on request for an additional charge.

Prices for Paper Copies

Paper copies purchased are priced as follows:

DEMAND COPIES		U.S.	Canada/Mexico	Elsewhere
1 - 99 Titles:	Academic*	$15.00 ea.	$16.50 ea	$23.00 ea.
	Other	$20.00 ea.	$22.00 ea.	$23.00 ea.

Clothbound copies are an additional $3.00 per volume. Photographic prints are $1.00 each.

MICROFILM COPIES

Dissertations or masters theses can be ordered on 35mm positive (black on white) microfilm made at a reduction of 15-20x. If you prefer this format, be sure to specifically note "microfilm" on your order.

Prices for Microfilm Copies

Microfilm copies are priced at follows:

DEMAND COPIES		U.S.	Canada/Mexico	Elsewhere
1 - 99 Titles:	Academic*	$ 7.50 ea.	$ 8.25 ea.	$11.50 ea.
	Other	$10.00 ea.	$11.00 ea.	$11.50 ea.

PAYMENT

Individuals *must* send a check or money order with their order. Prepaid orders need not include shipping and handling charges unless priority shipment is required. For priority shipment add $1.00 plus $1.00 per title for microform and $1.00 plus $2.00 per title for xerography. Institutions will be billed when their order is shipped; they should use their standard purchase order form, being sure to include the purchase order number and tax exemption number if applicable.

DELIVERY

Orders are shipped within 2 to 4 weeks after they are received.

WHERE TO PLACE YOUR ORDER

Customers in the United States, Canada, Central and South America, and the Caribbean should address orders and inquiries concerning the dissertation and/or masters thesis program to:

University Microfilms International

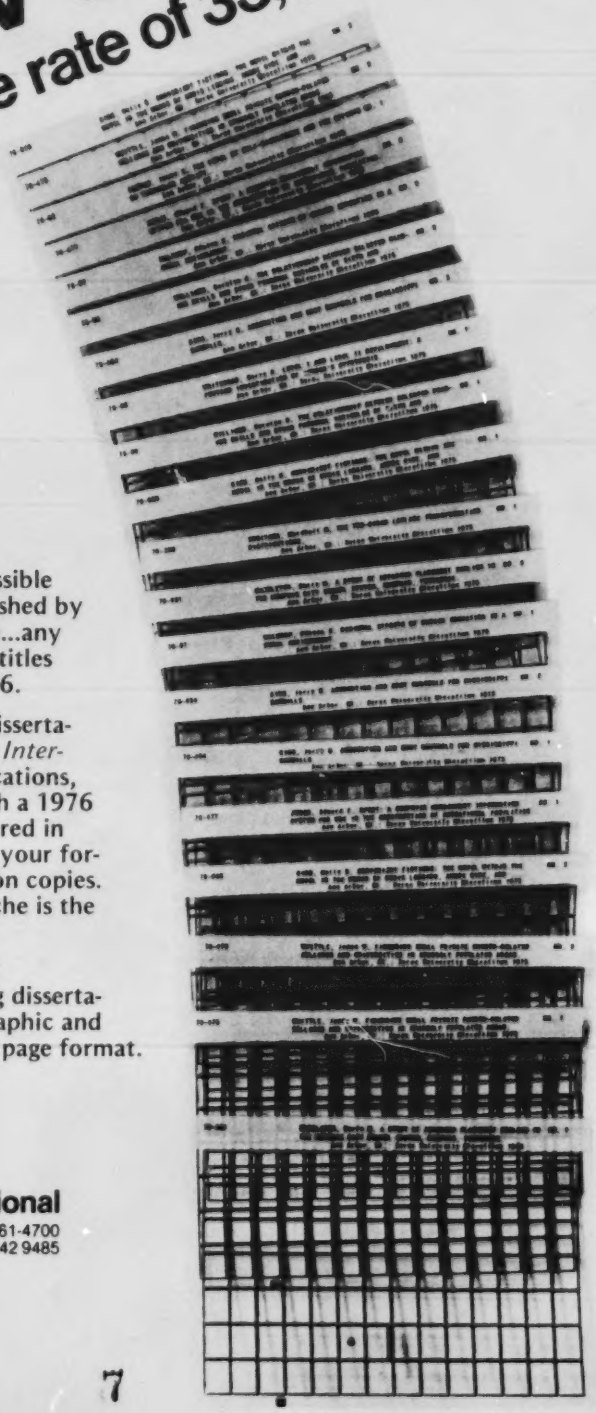
For the first time ever...

and at the rate of 33,000 a year.



Now, for the first time ever, it is possible to order doctoral dissertations published by University Microfilms on microfiche...any one of 33,000 doctoral dissertation titles published annually beginning in 1976.

The system is quite simple. Every dissertation found in *Dissertation Abstracts International*, or other dissertation publications, with an order number beginning with a 1976 prefix (e.g., 76-00,001) may be ordered in microfiche format. Simply indicate your format choice when ordering dissertation copies. The cost of dissertations on microfiche is the same as 35mm roll film copies.

Now, you have the complete format flexibility you asked for in obtaining dissertation copies: 35mm roll film, xerographic and now microfiche in its convenient 98 page format. The choice is yours.

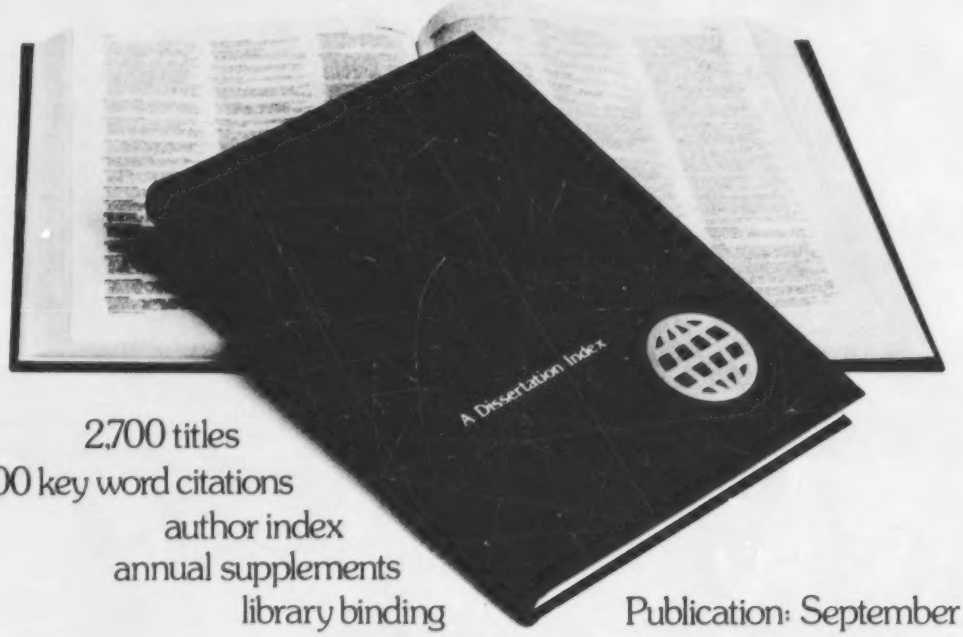
The comprehensive index you need to pinpoint new ideas, methods, case studies



2,700 titles
15,000 key word citations
author index
annual supplements
library binding

Publication: September 1976

Compiled by University Microfilms International from its data base of over one-half million doctoral dissertations, this comprehensive index puts you in touch with the latest developments in all areas of career education. The index is current and all-inclusive, yet efficiently organized by key words for easy use. Each entry identifies the location of an abstract in *Dissertation Abstracts International* and provides all information necessary for ordering full text copies from University Microfilms. This valuable new index will be used over and over again by career education faculty in high schools, junior colleges, universities and specialized institutions; as well as by administrators, government personnel and researchers.

Dissertation Abstracts International

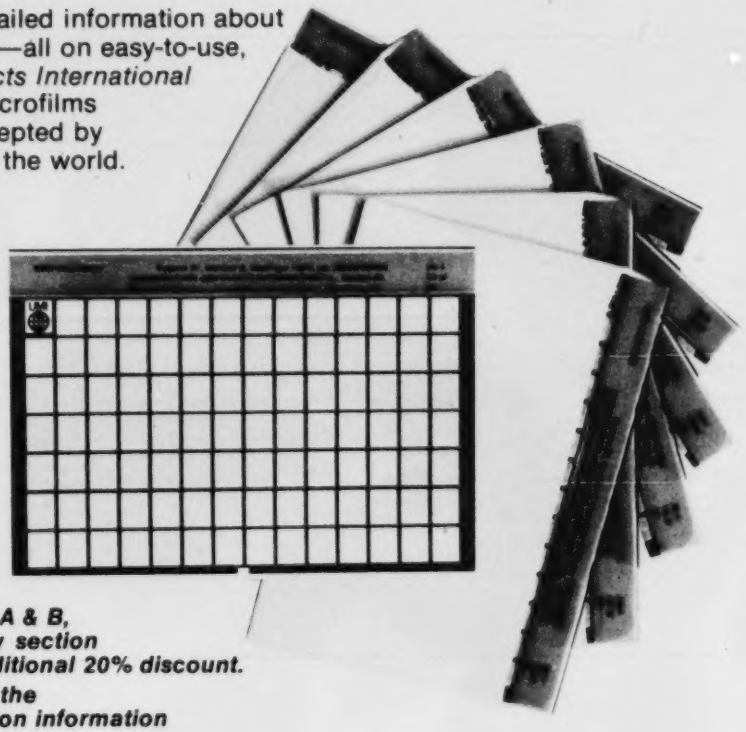
MICROFICHE EDITION

Monthly abstracts of doctoral dissertations with the cost and storage savings of microfiche.

Now you can give library users access to detailed information about the doctoral dissertations written in any field—all on easy-to-use, easy-to-store microfiche. *Dissertation Abstracts International* is the monthly publication from University Microfilms International that covers all dissertations accepted by over 380 degree-granting institutions around the world.

Each entry includes a 600-word abstract (written by the doctoral candidate), academic field, title, author, institution, advisor or supervisor, and number of pages—plus order information for microform or xerographic copies. An Author Index and Keyword Title Index are included for Sections A and B.

By choosing the Microfiche Edition of *DAI*, you can take advantage of the following special benefits:



- ***Microfiche Edition saves 37% over the cost of the paperbound edition.***
- ***Once you are a subscriber, to DAI Sections A & B, additional subscriptions in microfiche to any section or subsection are available to you at an additional 20% discount.***
- ***Subsections on microfiche (not available in the paperbound edition) let you make dissertation information available in specialized areas of inquiry.***
- ***Microfiche gives you dramatic savings in valuable shelf space.***
- ***Microfiche lasts–saves binding paper copies.***

Add this valuable resource to your research library—and take advantage of the cost and storage savings of microfiche.

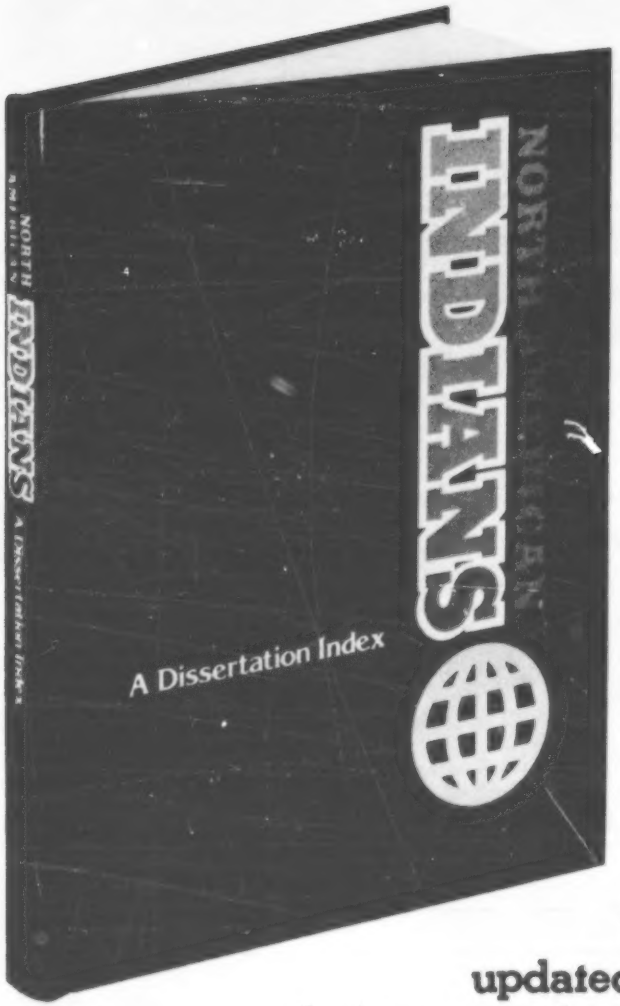
The only reference work of its kind....



A comprehensive index of doctoral dissertations on North American Indian life – past and present.

This essential reference and research work provides quick access to all of the doctoral dissertations written on North American Indians accepted by accredited degree-granting institutions in North America. Arranged in keyword sequence derived from significant terms used in each dissertation title, the 9,600 citations ensure comprehensive access to all relevant titles.

Supplements will keep North American Indians updated and usable by scholars and adminstrators for years to come.

- 1,730 dissertation titles
- Over 9,600 citations—each dissertation is indexed by keywords to provide quick user access to relevant titles.
- Abstract locations in Dissertation Abstracts International and full text copy ordering information provided in each citation. (Full text copies of most titles available from University Microfilms International)
- Author index supplements the keyword listing.

Price $28.00 per copy
